

Janet Taylor

Janet has dedicated over 20 years of her professional life to improving the lives of people with diabetes through teaching practical self-management skills and the use of advanced technologies.

Janet is Registered Nurse, Credentialed Diabetes Educator and Certified Insulin Pump and CGM (continuous glucose monitoring) trainer.

She holds a Bachelor's Degree in Nursing and Health Sciences and post graduate qualifications in Diabetes Education. She holds certification in diabetes technologies including the Medtronic Hybrid Closed Loop Pump, Tandem TSlim Basal IQ technology, Ypsomed Insulin Pump as well as Dexcom and Medtronic continuous glucose monitoring.

Janet was a founding staff member of the Qld Diabetes Centre at the Mater Hospital in Brisbane. She played an integral role in the delivery of the Insulin Pump Service and insulin stabilisation service. She attended King's College in London and Sheffield University, U.K. in 2004, as part of the original Australian team to be trained in the DAFNE (Dose Adjustment For Normal Eating Program).

Janet believes that all people with diabetes should have access to the highest quality care, including access to life-saving technology. She believes that diabetes self-management education (learning to manage your own diabetes) *is the best discovery since insulin itself.*

Janet values a team approach and works closely to partner with you, your Endocrinologist and GP to offer you a very personalised management approach.
